

FOOT HOLD

by SLIPNOT® **Cleaner & Degreaser**

CLEANING INSTRUCTIONS

Foothold by SLIPNOT is designed to be a truly environmentally friendly, non-toxic, & biodegradable cleaner and degreaser. Apply our easy-5 step process – **mix, apply, soak, scrub, and rinse** to achieve peak performance without the fear of bacteria contaminating clean processes.

STEP 1

MIX

Contact your SLIPNOT - FOOTHOLD specialist for application specific recommendations

STEP 2

APPLY

Saturate the surface with mixed Foothold solution.

STEP 3

SOAK

Let soak on surface for 60 secs.

STEP 4

SCRUB

Lightly scrub to lift stubborn debris.

STEP 5

RINSE

Rinse after scrubbing with water or vacuum.

Recommended Equipment

Custom KaiVac™ with KaiDrain Culper Tool

A versatile cleaning system that provides automatic dilution and application of Foothold with fresh water and applies low-pressure distribution, scrubbing, vacuuming, and freshwater rinse of the surface being cleaned.

*Consult your SLIPNOT - Foothold specialist for application specific recommendations

PIG SpillBlocker® Dike

For areas without direct or proper drainage, Pig offers a reusable spill blocker that allows the user to capture any flowing water and can be positioned around the KaiDrain attachment at the bottom of the staircase or end of hallway.
